

CUPE 2081 Education Coordinator Report

Nov 9th 2015

- **Leading Effective Teams – Relationship Systems Intelligence.** This 2 day workshop facilitated by Juhree Zimmerman was for work place leaders across the College and co-sponsored by CUPE, CCFA and HR. It was well attended—15 CUPE members participated! If there is further interest let me know. We may be able to participate in another offering in Spring 2016.
- **JAJEC Lunchtime Workshop** — Is this format helpful and informative? Are we providing you with enough information to feel comfortable tackling the application? Feedback is helpful so if you have an opinion I'm happy to listen.
- **JEIP Lunchtime Workshop** - pending for January/February. Stay tuned for information. This will be co-facilitated by members from our Joint Early Intervention Program. It is intended to provide some insight into how the program is intended to work and answer questions regarding the processes.

It has been an exciting fall to date! I am still working on a *Staff Development Handbook*. This seems to be a bigger project than I first thought so please bear with me. As well, we will be meeting with the Labour Management Committee to discuss fiscal end applications and the issue with members being denied reimbursement. Hopefully there will be a resolution soon! Stay tuned. If you have any questions, comments, concerns please don't hesitate to give me a call or send me an email grante@camosun.ca OR cupe2081@camosun.ca.
